

## Motion

## E-Business Suite Accelerator

*Motion International E-Business Suite Accelerator – The application suite supporting companies' business processes.*

### Motion International and Oracle

Motion International provides companies in the Small Medium Enterprise (SME) space with the power and the versatility of the international ERP Oracle E-Business Suite. Based on the experience of over 40 Oracle E-Business Suite implementations in 8 countries on 3 continents and industry best practices, **Motion International has developed an accelerator, based on Oracle E-Business Suite pre-configuration, that reduces implementation time and cost.**

Only standard functionality has been pre-configured in order to enable easy migration to new releases of Oracle E-Business Suite.

accounts receivable, accounts payable, MRP (Material Requirement Planning), sales and logistics.

The Motion International E-Business Suite Accelerator **is not a vertical solution but it's a pre-configured E-Business Suite (EBS).**

Thinking about vertical solutions means assuming that companies from the same sector have similar business processes. Motion International background instead highlights that producing the same product or sharing the same customer cluster doesn't mean using similar business processes.

### Accelerator not vertical solution

**Motion International E-Business Suite Accelerator** takes advantage from Oracle E-Business Suite so as to **cover all business processes from accounting to a complete supply chain management:**

Motion International  
experience in the  
manufacturing industry  
applied to Oracle  
technology and ERP

ACCELERATOR

Accelerators  
available

Discrete Manufacturing

Process Manufacturing

Project Accounting

Motion International E-Business Suite Accelerator assumption is totally different and emphasizes company uniqueness.

Motion International E-Business Suite Accelerator releases companies' resources making standard functionality implementation easy so that companies can improve their competitive advantage by focusing on core business.

**The pre-configuration reduces the implementation time by 70% offering the full potential of Oracle E-Business Suite at a cost suitably appealing for customers in the Small Medium Enterprise (SME) space.**

**Motion International E-Business Suite Accelerator is the starting point for a tailor made ERP.**

Motion International Accelerator:  
ERP implementation times and  
costs reduction by 70%

FLEXIBILITY

### Motion International

Motion International is an experienced, exclusively Oracle professional services company. One of very few firms that offers high-caliber multinational Oracle expertise worldwide, it has developed several proprietary best practices, tools and methodologies to ensure successful delivery. Headquartered in Minneapolis, Motion has offices in five countries and has delivered Oracle projects on five continents. Its clients include some of the world's largest global companies.

### Oracle

Oracle's business is information—how to manage it, use it, share it, protect it. The world's largest enterprise software company, Oracle is the only vendor to offer solutions for every tier of your business—database, middleware, business intelligence, business applications, and collaboration. With Oracle, you get information that helps you measure results, improve business processes, and communicate a single truth to your constituents.
